Description: The meeting point is at the National Park Exhibition in the district of Wörth. From there, we will carpool in our vehicles to the Hüttwinktal towards Alpengasthof Bodenhaus.

At certain points, there will be opportunities to observe the red deer during their rutting behavior undisturbed. The roaring of the stags is always clearly audible, accompanying us from dusk until darkness falls when the last light of the day fades away.

If the animals are not directly visible to the naked eye, we will utilize optical aids such as binoculars and scopes. The behavior of these impressive mammals throughout the seasons is also a significant topic for us.
